CARENZA CARE

Day Club

Our Day Club facilities can be a **real alternative** to full time residential care and are available to clients who have been referred to us by Social Services, Local Health Authorities or other such agencies.

Our **Therapeutic Activities** and programmes are designed to provide a **pleasant and stimulating** day that can **help restructure** the lives of the individual.

Our **new day centre** now also provides **showering facilities** with assistance where required from our trained staff.

Laundry facilities are also available.

Domiciliary Services

Supportive care in the comfort and convenience of home.

Person-centred care is based on individual needs, interests and abilities.

The focus on daily living skills is conducive to living independently.

We aim to maximise the individual's potential with a rehabilitative model of care.

By providing support and care within the home, we can prevent inappropriate placement and focus on new beginnings.

Carenza Care Professional Training Services

Professionally developed training courses for the Care industry available in A.R.B.D/Korsakoffs Syndrome. Either in house or at our own training centre at reasonable cost.

Consultancy/Development

A professionally developed consultancy service aimed at all service providers to aid them to develop suitable methods of care towards ARBD rehabilitation in order to maximise their clients growth towards independent living and integration into the Community.

Referral/Assessment Service

Carenza Care offer a referral service of suitably assessed potential clients to appropriately trained and registered Service Providers.
